

MINISTER OF HOME AFFAIRS OF THE REPUBLIC OF INDONESIA

INSTRUCTION OF THE MINISTER OF HOME AFFAIRS
NUMBER 17 OF 2021

REGARDING

EXTENSION OF THE IMPLEMENTATION OF MICRO-BASED RESTRICTIONS
FOR COMMUNITY ACTIVITY AND OPTIMIZING THE CORONA VIRUS
DISEASE 2019 HANDLING POST AT THE VILLAGE AND SUB-DISTRICT
LEVEL FOR HANDLING THE SPREAD OF THE CORONA VIRUS DISEASE
2019

MINISTER OF HOME AFFAIRS,

Following the instruction of the President of the Republic of Indonesia who instructed for of the Micro-based Restrictions for Community Activity (*Pemberlakuan Pembatasan Kegiatan Masyarakat* or “PPKM”) and further optimize the Corona Virus Disease 2019 (COVID-19) Handling Command Post (*Pos Komando* or “Posko”) at the Village and Sub-District Level and to strengthen the implementation of Instruction of the Minister of Home Affairs Number 15 of 2021 regarding Implementation of Emergency Community Activity Restriction of 2019 Corona Virus Disease in Java and Bali and Instruction of the Minister of Home Affairs Number 16 of 2021 regarding the Amendment of Instruction of the Minister of Home Affairs Number 15 of 2021 regarding Implementation of the Corona Virus Disease 2019 Emergency Restrictions on Public Activities in Java and Bali Areas, it is therefore instructed:

- To 1. Governor; and
2. Regent/Mayor
throughout Indonesia,
- To :
FIRST : The Governor:
- a) shall determine and regulate Micro-Based PPKM, hereinafter referred to as Micro PPKM, in their respective Regencies/Cities;
 - b) specifically for the the Governor of DKI Jakarta, Governor of Special Area of Yogyakarta, Governor of West Java, Governor of Central Java, Governor of East Java,

Governor of Banten and Governor of Bali to determine and regulate Micro-based PPKM throughout such Regency/City not included or has been excluded from the areas stipulated in the Instruction of the Minister of Home Affairs Number 15 of 2021 and Instruction of the Minister of Home Affairs Number 16 of 2021;

- c) Specifically for the Governors in which with its areas of Regencies/Cities are stipulated in accordance with the level criteria of pandemic situation based on assessments, with the level 4 (four) criteria, namely:
- 1) Governor of Aceh, namely Banda Aceh City;
 - 2) Governor of Bengkulu, namely Bengkulu City;
 - 3) Governor of Jambi, namely Jambi City;
 - 4) Governor of West Kalimantan, namely Pontianak City and Singkawang City;
 - 5) Governor of Central Kalimantan, namely Lamandau City, Sukamara Regency, and Palangkaraya City;
 - 6) Governor of East Kalimantan, namely Berau Regency, Balikpapan City and Bontang City;
 - 7) Governor of Kalimantan, namely Bulungan Regency;
 - 8) Governor of Riau Islands, namely Natuna Regency, Bintan Regency, Batam City and Tanjung Pinang City;
 - 9) Governor of Lampung, namely Bandar Lampung City and Metro City;
 - 10) Governor of Maluku, namely Aru Islands Regency and Ambon City;
 - 11) Governor of West Nusa Tenggara, namely Mataram City;
 - 12) Governor of East Nusa Tenggara, namely Lembata Regency and Nagekeo Regency;
 - 13) Governor of Papua, namely Boven Digoel Regency and Jayapura City;
 - 14) Governor of West Papua, namely Fak Fak Regency, Manokwari Regency, Teluk Bintuni Regency, Teluk Wondama Regency and Sorong City;
 - 15) Governor of Riau, namely Pekanbaru City;
 - 16) Governor of Central Sulawesi, namely Palu City;

- 17) Governor of Southeast Sulawesi, namely Kendari City;
 - 18) Governor of North Sulawesi, namely Manado City and Tomohon City;
 - 19) Governor of West Sumatera, namely Bukittinggi City, Padang City, Padang Panjang City, and Solok City;
 - 20) Governor of South Sumatera, namely Lubuk Linggau City and Palembang City; and
 - 21) Governor of North Sumatera, namely Medan City and Sibolga City.
- d) The Regents/Mayors, in so far it is not included in letter c, shall determine and regulate Micro PPKM in their respective areas of Districts, Villages and Sub-Districts level until the Neighborhood Unit (*Rukun Tetangga* or “RT”)/ Community Unit (*Rukun Warga* or “RW”) that causes and/or potentially causes COVID-19 transmission according to the condition of the area by paying attention to the scope of the restrictions implementation.

SECOND : Micro PPKM as referred to in the FIRST Dictum letter a, letter b, and letter d shall be conducted by considering the criteria of area handling zonation to RT level and the criteria level as referred to in letter c shall be stipulated by the Minister of Health.

THIRD : Micro PPKM as referred to in the SECOND Dictum shall be conducted by considering the criteria of area handling zonation until the RT level with the following criteria:

- a. Green Zone with the criteria that there is no COVID-19 cases in one RT, therefore the control scenario is conducted with active surveillance, all suspects are tested and case monitoring shall still be carried out regularly and periodically;
- b. Yellow Zone with the criteria that if there is 1 (one) up to two (2) households with confirmed positive cases within one RT for the past 7 (seven) days, therefore the control scenario is to find the suspect cases and trace of close contact, then conducting independent isolation for positive patients and close contact under strict surveillance;

- c. Orange Zone with the criteria that if there are 3 (three) up to 5 (five) households with confirmed positive cases within one RT for the past 7 (seven) days, therefore the control scenario is to find suspect cases and close contact tracing, then conducting self-isolation for positive patients and close contact under strict surveillance, as well as closing houses of worship, children's playground, and other public places except for essential sectors; and
- d. Red Zone with the criteria that if there are more than 5 (five) households confirmed positive cases within one RT for the past 7 (seven) days, therefore the control scenario is the implementation of PPKM at the RT level which includes:
 - 1) finding suspect cases and close contact tracing;
 - 2) conducting independent/centered isolation with strict surveillance;
 - 3) religious activities shall be temporarily avoided until such area is no longer specified as Red Zone according to the decision of the Regional Government;
 - 4) proportionally closing children's playground and other public places according to the dynamics of the COVID-19 transmission development, except for essential sectors;
 - 5) prohibiting crowds of more than 3 (three) people;
 - 6) limiting entry and exit to the RT area until a maximum of 20.00 o'clock; and
 - 7) eliminating social community activities in the RT premises that create crowds and have the potential to cause transmission,

further regulations on matters as referred to in letter a to letter d shall be determined by the National COVID-19 Handling Task Force.

FOURTH : Micro PPKM as referred to in the THIRD Dictum shall be conducted through coordination between all involved parties, starting from the Head of RT/RW, Head of the Village/Sub-District, Community Protection Unit (*Satuan Perlindungan Masyarakat* or "Satlinmas"), Non-Commissioned Village Guardian (*Bintara Pembina Desa* or "Babinsa"), Bhayangkara

Guardian of Community Security and Order (*Bhayangkara Pembina Keamanan dan Ketertiban Masyarakat* or “Bhabinkamtibmas”), Civil Service Police Unit (*Satuan Polisi Pamong Praja* or “Satpol PP”), Family Welfare Empowerment Team (*Tim Penggerak Pemberdayaan Kesejahteraan Keluarga* or “TP PKK”), Integrated Service Post (*Pos Pelayanan Terpadu* or “Posyandu”), *Dasawisma*, Public Figures, Religious Leaders, Traditional Leaders, Youth Leaders, Informants, Companion, Health Workers, and Youth Organizations as well as other volunteers.

- FIFTH : The mechanism of coordination, surveillance, and evaluation of the implementation of Micro PPKM as referred to in the FOURTH Dictum shall be conducted by:
- a. forming Posko at the Village and Sub-District level for areas that have not yet formed Posko and for areas that have already formed Posko to optimize its role and function as well as ensuring the implementation of control on the micro level in RT scale;
 - b. for supervision and report of Posko at the Village and Sub-District level, to form District Posko, for areas that have not formed District Posko and for areas that have already formed District Posko to optimize its role and function; and
 - c. implementation as referred to in letter a, specifically for Posko at the Village level may determine or make changes to the regulation in the form of village regulations, head of village regulations, and head of village decrees.
- SIXTH : Posko at the Village and Sub-District level as referred to in the FIFTH Dictum is the institution formed to become the Posko for COVID-19 handling at the Village and Sub-District level that has four functions, namely:
- a. prevention;
 - b. handling;
 - c. guidance; and
 - d. support for the implementation of the handling of COVID-19 at the Village and Sub-District level.

- SEVENTH : In carrying out functions as referred to in the FIFTH Dictum, Posko at the Village and Sub-District level coordinates with the COVID-19 Task Force Unit at the District, Regency/City, Province, the Indonesian National Army (*Tentara Nasional Indonesia* or “TNI”), the National Police (*Kepolisian Negara Republik Indonesia* or “POLRI”), and conveyed to the National COVID-19 Task Force, Ministry of Health, and Ministry of Home Affairs.
- EIGHT : Financing needs in the implementation of Posko at the Village and Sub-District level are charged to the budget of each agents of the Governmental elements in accordance with the primary needs as follows:
- a. the needs at the Village level are borne by the Village Budget and may be supported by the source of income from other villages through Village Revenue and Expenditure Budget (*Anggaran Pendapatan dan Belanja Desa* or “APB Desa”);
 - b. the needs at the Sub-District level are borne by the Regional Revenues and Expenditures Budget (*Anggaran Pendapatan Belanja Daerah* or “APBD”) of the Regency/City;
 - c. the needs related to Babinsa/Bhabinkamtibmas are borne by the budget of TNI/POLRI;
 - d. the needs related to strengthening of testing, tracing and treatment are borne by the Budget of the Ministry of Health or the National Disaster Management Agency, APBD of the Province/Regency/City; and
 - e. the needs relating to the basic living needs are borne by the Budget of the Logistics Affairs Board (*Badan Urusan Logistik* or “BULOG”)/ Ministry of State-Owned Enterprises (*Badan Usaha Milik Negara* or “BUMN”), Ministry of Social Affairs, Ministry of Industry, and Ministry of Finance as well as APBD of the Province/Regency/City.
- NINTH : Posko at the Village level is chaired by the Head of the Village in which its implementation is assisted by Village Apparatus, Village Correctional Institution (*Lembaga Pemasyarakatan Desa* or “LKD”), Village Customary Institution (*Lembaga Adat Desa* or

“LAD”), Community Empowerment Institution (*Lembaga Pemberdayaan Masyarakat* or “LPM”) and other Village Partners and Posko at the Sub-District level is chaired by the Head of the Sub-District, and to each Posko either at the Village and Sub-District level are also assisted by Satlinmas, Babinsa, Bhabinkamtibmas, and Public Figures.

- TENTH : Regulation for areas shall be determined as level 4 (four) as referred to in the FIRST Dictum letter c is implemented with the following provisions:
- a. implementation of teaching and learning activities (Schools, Universities, Academies, Places of Study/Training) shall be conducted online;
 - b. implementation of activities in workplaces/offices shall be WFH at 75% (seventy five percent) and WFO at 25% (twenty five percent) with stricter implementation of health protocols;
 - c. implementation of activities for the essential sectors such as healthcare, foodstuff, food, beverages, energy, communication and information technology, finance, banking, payment system, capital market, logistics, hospitality, construction, strategic industry, basic services, public utility, national vital project and industries determined as a national vital object and certain objects, places that provides daily necessities in relation to the basic necessities of the people (markets, stores, convenient stores and supermarkets) whether in its own location or located in shopping centre/mall shall operate 100% (one hundred percent) with arrangements of operational hours, capacity, and stricter implementation of health protocols;
 - d. implementation of dine-in in public places (food stalls, diners, cafes, street vendors, hawker stalls) whether in a special location or located in shopping centre/mall:
 - 1) dine-in by 25% (twenty five percent) from capacity;
 - 2) limiting operational hours until 17.00 o'clock local time;
 - 3) for delivery/take away shall be permitted until 20.00 o'clock local time;

- 4) for restaurants with services of delivery/take away may operate for 24 (twenty four) hours; and
 - 5) implementation of the requirements as referred to in number 1) to number 4) shall be conducted with stricter implementation of health protocols,
- e. implementation of activities in shopping centre/mall/trade centre:
- 1) limiting operational hours until 17.00 o'clock local time; and
 - 2) limiting visitor capacity by 25% (twenty five percent) with stricter implementation of health protocols,
- f. implementation of construction activities (construction location and project location) may operate 100% (one hundred percent) with stricter implementation of health protocols;
- g. implementation of religious activities (on houses of worship at Mosques, Prayer Rooms, Churches, Temples, and Shires as well as other houses of worship) shall be temporarily suspended, until such area is considered safe based on the stipulation of the local Regional Government and to optimize worship activities at home,
- h. implementation of activities in public areas (public facilities, public parks, tourist attractions or other public areas) is temporarily closed until such area is considered safe based on the stipulation of the local Regional Government;
- i. implementation of art, culture and social activities (art, culture and social locations that can create crowds) shall be temporarily closed, until such area is considered safe based on the stipulation of the local Regional Government;
- j. for wedding receptions shall be attended no more than 30 (thirty) guests and no food shall be served in place;
- k. for social celebratory activities by 25% (twenty five percent) from capacity and no in place foods being served;
- l. implementation of offline meetings, seminars, and gatherings (location of meetings/seminars/gatherings in public places that can create crowds) shall be temporarily closed, until such area is considered safe based on the stipulation of the local Regional Government; and

- m. utilization of public transportations (public vehicles, mass transportation, taxi (conventional and online), taxibike (conventional and online) and rental transportations, may operate by arranging capacity, operational hours and stricter implementation of health protocols which further arrangements shall be regulated by the regional government.

ELEVENTH : Implementation of limiting activities and education for level 4 (four) as referred to in the TENTH Dictum shall be conducted with the following principles:

- a. COVID-19 is most contagious in closed conditions, long meetings (more than 15 minutes), close interactions, crowds, activities with heavy breathing such as singing, speaking and laughing and without masks such as eating together;
- b. correct and consistent use of masks is the most minimal health protocol that shall be implemented by every person;
- c. washing hands with soap or hand sanitizer repeatedly especially after touching something that has been touched by another person (such as door handles or stair handles), touching face area with hands shall be avoided;
- d. a better mask type, will be more protective (i.e. disposable surgical mask will be better than cloth mask, and N95 mask will be better than surgical mask). Now, the usage of 2 (two) layer masks is the better choice. Masks shall be replaced after being used (>4 (more than four) hours);
- e. implementation of health protocols shall be conducted by considering the air ventilation, duration, and interaction distance, to minimize transmission risk in doing activities;
- f. distance consideration may be implemented as follows:
 - 1) activities shall be conducted at home, and shall interact only with people living in the same house;
 - 2) if it is needed to leave the house, then it is important to keep the distance at a minimum of 2 (two) meters in interacting with other people. Limiting/avoiding contacts with people living outside the house; and

- 3) socialization of various visual instructions in public places relating to the prevention and handling of COVID-19,
- g. distance consideration may be implemented as follows:
 - 1) if it is needed to leave the house and to attend an event, such activity shall be conducted in a short duration to lower the transmission risk; and
 - 2) in offices and other activity situations, scheduling and rotation may help to lower the duration of interaction,
- h. ventilation consideration may be implemented as follows:
 - 1) outdoor activities have a much lower transmission risk than compared to indoor; and
 - 2) rooms shall always have a good air ventilation. Opening doors, windows may be conducted to lower the transmission risks. In conditions where the doors and windows are cannot be opened, then air purified with High Efficiency Particulate Air (HEPA) filter may be used indoors,
- i. in conditions where the transmission has expanded throughout the community, then a stricter intervention by significantly limiting community mobility shall be conducted;
- j. the strengthening of 3T (testing, tracing, treatment) shall always be implemented:
 - 1) testing shall be increased according to the weekly positivity rate, with the requirement as follows:

Weekly Positivity Rate	Total Test (per 1000 residents per week)
<5%	1
>5% - <15%	5
>15% - <25%	10
>25%	15

Testing shall be increased with a positivity rate target of <10% (ten percent); testing shall always be increased towards suspects, namely those with symptoms, and also close contact. Target of tested people per day for every regency/city shall follow the following table:

Province	Regency/City	Total Test Targets / day
Aceh	BANDA ACEH CITY	592
Bengkulu	BENGKULU CITY	804
Jambi	JAMBI CITY	1,291
West Kalimantan	PONTIANAK CITY	1,412
	SINGKAWANG CITY	491
Central Kalimantan	PALANGKA RAYA CITY	416
	LAMANDAU	176
	SUKAMARA	140
East Kalimantan	BERAU	166
	BALIKPAPAN CITY	1,377
	BONTANG CITY	261
North Kalimantan	BULUNGAN	192
Riau Islands	BINTAN	353
	BATAM CITY	3,307
	TANJUNG PINANG CITY	468
	NATUNA	115
Lampung	BANDAR LAMPUNG CITY	2,333
	METRO CITY	369
Maluku	ARU ISLANDS	135
	AMBON CITY	1,016
NTB	MATARAM CITY	369
NTT	LEMBATA	318
	NAEKEO	106
Papua	BOVEN DIGOEL	10
	JAYAPURA CITY	438
West Papua	FAKFAK	174
	SORONG CITY	196
	MANOKWARI	248
	BINTUNI BAY	97
	WONDAMA BAY	24

Riau	PEKANBARU CITY	1,658
Central Sulawesi	PALU CITY	286
Southeast Sulawesi	KENDARI CITY	861
North Sulawesi	MANADO CITY	309
	TOMOHON CITY	234
West Sumatera	BUKITTINGGI CITY	292
	PADANG CITY	1,406
	PADANG PANJANG CITY	119
	SOLOK CITY	53
South Sumatera	LUBUKLINGGAU CITY	513
	PALEMBANG CITY	2,454
North Sumatera	MEDAN CITY	406
	SIBOLGA CITY	129

- 2) tracing shall be conducted until more than 15 close contacts per confirmed cases. Quarantine shall be conducted to those identified as close contact. After being identified as close contact, entry-test and quarantine shall be conducted. If the examination result is positive, isolation shall be conducted. If the examination result is negative, quarantine shall be continued. On the 5th day of quarantine, exit-test is required to be conducted to observe whether the virus is detected after/on the incubation period. If negative, the patient is deemed to complete the quarantine period; and
 - 3) treatment shall be comprehensively conducted according to heaviness of symptoms. Only patients with medium, heavy, and critical conditions shall be treated in the hospital. Isolation shall be conducted strictly to prevent transmissions,
- k. efforts to accelerate vaccination shall always be conducted to protect as many people and such effort shall be conducted to lower the transmission rate as well as

prioritizing the safety of those susceptible to death (i.e. the elderly, people with comorbid) bearing in mind the limited health capacity and the longterm impact of the COVID-19 infection.

- TWELFTH : The arrangement of Micro PPKM with zonation criteria shall be conducted by following provisions:
- a. implementation of teaching and learning activities (Schools, Universities, Academies, Places of Study/Training):
 - 1) For Regencies/Cities that are not located in Red Zone and Orange Zone shall implement teaching and learning activities in accordance with the technical provisions from the Ministry of Education, Culture, Research and Technology with stricter health protocols; and
 - 2) For Regencies/Cities that are located in the Orange Zone and Red Zone shall implement teaching and learning activities online,
 - b. implementation of activities in workplaces/offices (Government / Ministries/ Institutions/ Regional Government offices, State-Owned Enterprise/ District-Owned Enterprise Office/ Private offices):
 - 1) For Regencies/Cities that are not located in Red Zone and Orange Zone shall implement Work From Home (WFH) at 50% (fifty) percent capacity and Work From Office (WFO) at 50% (fifty) percent capacity; and
 - 2) For Regencies/Cities that are located in Orange Zone and Red Zone shall implement Work From Home (WFH) at 75% (seventy five) percent and Work From Office (WFO) at 25% (twenty five) percent; and
 - 3) The implementation of WFH and WFO as referred to in number 1) and number 2) above, shall be implemented by:
 - a. applying stricter health protocols;
 - b. arranging rotating working hours;
 - c. not allowing any form of other mobilization during WFH; and
 - d. implementation of WFH and WFO shall be adjusted to the relevant instructions from Ministries/Institutions from each respective Regional Government,

- c. implementation of activities for the essential sectors such as healthcare, foodstuff, food, beverages, energy, communication and information technology, finance, banking, payment system, capital market, logistics, hospitality, construction, strategic industry, basic services, public utility, national vital project and industries that has been established as vital national objects as well as specific objects, places that provide basic needs relating to public needs (markets, stores, convenience stores, and supermarkets) either in its own location or located within malls can still operate at 100% (one hundred percent) with adjusted operational hours, capacity and implementing stricter health protocols;
- d. Implementation of dining / drinking activities in public places (food stalls, diners, cafes, street vendors, hawker stalls) whether in its own location or located within shopping centers/malls shall:
 - 1) dine-in by 25% (twenty five percent) from capacity;
 - 2) limiting operational hours until 17.00 o'clock local time;
 - 3) for delivery/take away shall be permitted until 20.00 o'clock local time;
 - 4) for restaurants with services of delivery/take away may operate 24 (twenty four) hours; and
 - 5) implementation of the requirements as referred to in number 1) to number 4) shall be conducted with stricter implementation of health protocols
- e. implementation of activities for places of shopping/ malls/ trade centers shall:
 - 1) Limit their operation hours to 17:00 o'clock local time; and
 - 2) Limit their visitor capacity to 25% (twenty five) percent and implement stricter health protocols,
- f. implementation of construction activities (places of construction and project location) can operate at 100% (one hundred) percent capacity by implementing stricter healthy protocols;
- g. implementation of religious activities (on houses of worship at Mosque, Prayer Rooms, Churches, Temples (*Pura*),

Shires and Temples (*Klenteng*) as well as other houses of worship):

- 1) for Regencies/Cities that are not located in Orange Zone and Red Zone, religious activities can still be enacted as long as it fulfills the technical requirements set forth by the Ministry of Religion with the implementation of stricter health protocols; and
 - 2) for Regencies/Cities that are located in Orange Zone and Red Zone, religious activities shall be temporarily suspended until the locations in question has been declared safe by the local Regional Government and through optimizing religious activities at home,
- h. implementation of activities in public areas (public facilities, public parks, places of recreation or other public spaces);
- 1) for regencies/cities that are not located in Orange Zone and Red Zone is permitted to open, with a maximum capacity of 25% (twenty five percent) and implementing stricter health protocols in which its regulation is stipulated by the Regional Government; and
 - 2) for regencies/cities that are located in Orange Zone and Red Zone shall be temporarily closed until the areas in question has been declared safe based on the stipulation of the local Regional Government,
- i. implementation of arts, cultural, sports and social activities (locations of art, culture, sports facilities and social activities that can cause crowds and masses):
- 1) for regencies/cities that are not located in Orange Zone and Red Zone is permitted to open, with a maximum capacity of 25% (twenty five percent) and implementing stricter health protocols in which its regulation is further stipulated by the Regional Government;
 - 2) for regencies/cities that are located in Orange Zone and Red Zone shall be temporarily closed until the locations in question has been declared safe based on the stipulation of the local Regional Government; and
 - 3) for social celebratory activities (public activities of no more than 25% (twenty five percent) capacity and and no in place foods being served;

- j. implementation of meetings, seminars and other offline gatherings (location of meetings/seminars/gatherings in public places that can create crowds):
 - 1) for regencies/cities that are not located in Orange Zone and Red Zone is permitted to open, with a maximum capacity of 25% (twenty five percent) and implementing stricter health protocols as further regulated by the Regional Government; and
 - 2) for regencies/cities that are located in Orange Zone and Red Zone shall be temporarily closed until the areas in question has been declared safe by the local Regional Government,
- k. utilization of public transportations (public vehicles, mass transportation, taxi (conventional and online), taxibike (conventional and online) and rental transportations, may operate by arranging capacity, operational hours and stricter implementation of health protocols which further arrangements shall be regulated by the regional government.

THIRTEENTH : The scope of regulation on the enforcement of limitation shall consists of Provinces and Regencies/Cities that fulfills the following elements:

- a. The mortality rate is above the national average of mortality rate;
- b. The recovery rate is below the national average of recovery rate;
- c. The active case rate is above the national average of active cases;
- d. The Bed Occupancy Ratio (BOR) rate of Hospitals for Intensive Care Unites (ICU) and isolation rooms are above 70% (seventy percent); and
- e. The positivity rate (proportion of positive tests) are above 5% (five percent).

FOURTEENTH : Governors and Regents/Mayors in implementing the enforcement of limitations for Regencies/Cities in its areas by considering one or more elements of the 5 (five) parameters mentioned above on the THIRTEENTH Dictum as well as considering other efforts to control the spread of COVID-19.

- FIFTEENTH : Aside from the provisions of Micro PPKM, in order for the Provincial Government and Regents/Mayors to Village Government as well as Sub-Districts to further intensify the discipline of health protocols and efforts of healthcare handling (circulation of masks and utilizing masks in the proper and correct way, washing hands using soap or hand sanitizers, maintaining distance, avoiding crowds and masses that would potentially cause transmission and limiting mobility), as well as to strengthen the ability, tracing system and management, corrective treatment including the improvement of health facilities (beds, ICU rooms, as well as places of isolation /quarantine, coordination between regions that are close by through the Integrated Emergency Response System (*Sistem Penanggulangan Gawat Darurat Terpadu* or "SPGDT") for the redistribution of patients and healthcare workers in accordance with the relevant authorities.
- SIXTEENTH : To prevent the increase of COVID-19 transmission rates during Public Holidays of 2021, observation, control and evaluation efforts shall be conducted alongside the following provisions:
- a. Governors and Regents/Mayors:
 1. to conduct socialization relating to Micro PPKM to the public residing in its territories and if there exists a violation then sanctions shall be imposed in accordance with the laws and regulations;
 2. to intensify the implementation of 5M:
 - a. using masks;
 - b. washing hands;
 - c. social distancing;
 - d. avoiding crowds and masses; and
 - e. reducing mobility,also to conduct the strengthening of 3T:
 - a. testing;
 - b. tracing; and
 - c. treatment (prepare and supervise the availability of isolation and quarantine places),
 3. optimize public health centers (*Puskesmas*) in responding to COVID-19 especially in preventing, testing and tracing;
 4. to anticipate potential crowds that might occur during PPKM in each respective areas, whether relating to

- activities in the economy, market, malls as well as those relating to religion that may violate COVID-19 health protocols, to further conduct anticipatory efforts and conduct prevention against crowds and if required, legal enforcement is required in accordance with the laws and regulations;
5. limit and tighten the activities of the public in public facilities/ places of recreation/ public parks by implementing the obligations of:
 - a) implementing antigen/genose screening tests for indoor paid facilities/recreational location;
 - b) implementing stricter health protocols in outdoor public facilities/recreational location; and
 - c) for areas on Orange Zone and Red Zone:
 - 1) public activities in public facilities/recreational places/parks shall not be allowed; and
 - 2) if there exists such violations, law enforcement shall be conducted in the form of location closure in accordance with the provisions of laws and regulations,
 6. together with the Military Commander as the person in charge for the supervision of entry for Indonesian Migrant Workers (*Pekerja Migran Indonesia* or PMI) through the DKI Jakarta Province, West Java Province, Central Java Province, East Java Province, North Sumatera Province, West Nusa Tenggara Province, Riau Island Province, West Kalimantan Province and North Kalimantan Province and coordinate with the related Ministries and Institutions (Customs and Immigration); and
 7. Regents/Mayors shall be fully supported by the Military District Commander (*Komandan Distrik Militer* or Dandim) and the Chief of Departemental Police in the coordination and monitoring the implementation of Micro PPKM in the Orange Zone and Red Zone,
 - b. if the public conducts travel of cross-border Province/Regency/City without having certain travelling administration documents as have been regulated by the Government, the Head of Village/Head of Sub-District through Village/Sub-District Posko shall provide a place for

- independent quarantine for 5x24 hours by implementing stricter health protocols with the quarantine fee being borne to the public that has conducted travel of cross-border Province/Regency/City;
- c. if the public will conduct certain travels as referred to in paragraph b, then certain travel administrative documents/permit letter that has been issued by the Head of Village/Head of Sub-District with wet signature/electronic signature and identification of the prospective travelling actor must be presented;
 - d. the implementing institutions in the Transportation sector and Satpol PP to conduct the strengthening, control and supervision on the travel of people on the Posko check point in each respective areas together with TNI and POLRI on Public Holidays of 2021;
 - e. All Satpol PP, Community Protection Unit (*Satuan Perlindungan Masyarakat* or “Satlinmas”) and Regional Disaster Management Body (*Badan Penanggulangan Bencana Daerah* or BPBD), as well as the Fire Department to increase the readiness and active involvement in preventing and overcoming public activities that can disrupt public peace and order, mass gatherings/crowds in public facilities, entertainment facilities (shopping centers and restaurants), recreational places and conduct anticipation against weather conditions that have the potential of natural disasters (floods, earthquakes, landslides, and volcanic eruptions); and
 - f. the agriculture and trade sectors shall conduct more intensive efforts to maintain price stability (particularly prices of foodstuff), and ensuring the smooth distribution of foodstuff from and to the location of sales/ markets.

SEVENTEENTH : For Provincial/Regency/City Governments that will issue policies in enacting specific criterias and requirements for Public Holidays of 2021 may provide its follow-up in so far it does not contradict with the rules/guidelines that have been issued by the related Ministries/Institutions and COVID-19 Task Force.

- EIGHTEENTH** : Provision of the budget for the implementation of Micro PPKM policy may be implemented through amendment in the Regional Revenues and Expenditures Budget (*Anggaran Pembelanjaan dan Belanja Daerah* or APBD) of the 2021 Fiscal Year and reported to the Head of People’s Legislative Regional Council (*Dewan Perwakilan Rakyat* or “DPRD”), for later to be budgeted in the Regional Regulation regarding the APBD Amendment for the 2021 Fiscal Year or accommodated in the Budget Realization Report (*Laporan Realisasi Anggaran* or LRA) for Regional Government that do not make amendments to the APBD for the 2021 Fiscal Year.
- NINETEENTH** : The implementation of Micro PPKM is extended from July 6, 2021 until July 20, 2021, and taking into account the expiration of the limitation validity period based on the achievement of targets on the five parameters for 23 (twenty three) consecutive weeks, therefore the heads of regions are required to carry out monitoring and coordination meetings with all relevant stakeholders.
- TWENTIETH** : To:
- a. the Governors throughout Indonesia and Regent/Mayors as referred to in the FIRST Dictum based on the integrated recording and reporting system of the National COVID-19 Handling Task Force to provide the report to the Minister of Home Affairs that at least contains the following:
 - 1. the implementation of Micro PPKM;
